

The backward video internet phenomenon is spreading throughout the world. Do funny things, film them and play it backwards! The experience is mind blowing and sometimes incredibly funny.

IN THE REWIND SHOW VIEWERS CAN send in their best backward video moments and compete in different categories. In the studio a 10-headed jury will give their points in different categories. First they watch the clip in the forward mode, and the judges give their preliminary points guessing how it will look backwards. Then the tape is played backwards and the wonders of the Rewind Show is revealed!

IN THE NOBLE ART OF BACKWARD MOVEMENT there are many things that you can try and reach perfection while doing them as naturally as possible, for instance:

- 100 meters running
- Figure skating jumping
- Karate fighting

OTHER CATEGORIES ARE MORE BASED ON the comedy aspect of doing things backward. Classics are:

- Singing (hilarious!)
- Remaking of a classic scene from movies
- Blowing up a balloon with your behind

The jury gives points ranging from 1-10. The average points are transformed into money. If all of the points given the contestant wins 10,000 Euros!

*The Rewind Show - why do it things the usual way?*
